DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 16 and 19 – 20, drawn to format conversion, classified in class 348, subclass 441.
- II. Claims 17 and 18, drawn to bandwidth reduction in digital communication systems i.e. decompression, classified in class 375, subclass 240.25.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as decompressing frames for bandwidth reduction in a digital communications system. See MPEP § 806.05(d).
